# ARIF RAUGIR

Software Engineer | Full-Stack & Machine Learning

arifraugir@gmail.com | +8801710532108 | Tejgaon, Dhaka, Bangladesh | GitHub | LinkedIn | Portfolio

## PROFESSIONAL SUMMARY

Django backend developer with 3+ full-stack projects in production, specializing in REST API design, role-based authentication, and e-commerce systems. Hands-on experience in machine learning and penetration testing. Seeking to apply real-world development skills in a collaborative internship environment.

## EDUCATION

**B.Sc. in Computer Science** — Southeast University, Dhaka 2023 – 2027 (Expected) CGPA: 3.35

## TECHNICAL SKILLS

**Languages:** Python, Java, C/C++, JavaScript

**Web Development:** React, Django, HTML, CSS, Tailwind CSS, Django REST Framework

**Databases:** PostgreSQL, SQLite, MongoDB, Firebase

**AI / ML:** PyTorch, Machine Learning, Deep Learning

**Cybersecurity:** Penetration Testing, Web Security, OWASP Top 10, Burp Suite, Metasploit, Nmap

**Tools & DevOps:** Git, GitHub, REST API, Postman, Vercel, Linux, Kali Linux

## PROJECTS

**Dr.Finder — Django Healthcare Web App** GitHub

- Full-stack Django web app for finding doctors by location and speciality with role-based auth (patient, doctor, admin).
- Features appointment booking, hospital listings, and emergency contact system.

*Tech: Django, Python, SQLite, Bootstrap, JavaScript*

**JerseyNation BD — E-Commerce Platform** GitHub

- Premium football jersey e-commerce platform with cart management, order tracking, and admin dashboard.
- Supports nationwide delivery with cash-on-delivery system and product search.

*Tech: Django, Python, SQLite, HTML, CSS, JavaScript*

**GesturePlay — Hand Gesture Game Controller** GitHub

- Innovative game controller using tactile push buttons and hand gesture recognition to control multiple games.
- Games include Dino Runner and Snake — fully playable via gesture input.

*Tech: Python, OpenCV, MediaPipe, Hardware Integration*

## CERTIFICATIONS

- C)PTE: Certified Penetration Testing Engineer — Mile2 Cybersecurity Certifications
- Applied Penetration Testing Engineer — CADS012 Structured Course
- TryHackMe — Cybersecurity Labs (OSINT, Exploitation, Post-Exploitation)
- Sigma Web Development Course — Full Stack Fundamentals

## LANGUAGES

- Bengali — Native
- English — Fluent
